## summary

I'm a developer with a strong desire to build engaging and exciting products. I'm always looking to take whatever I'm working on to the next level, aesthetically and functionally.

## education

**Humber College**

Etobicoke, ON - 2012 to 2015

*Web Design and Interactive Media - Advanced Diploma*

**Centennial College**

Scarborough, ON - 2008 to 2010

*Software Engineering Technology - Interactive Gaming*

## experience

**Appseed**

May 2014 - August 2014

*Android Programmer*

Helped build Android phone version of Appseed. Worked with small group to create and implement image capturing and processing code, and unique user interface and interactions.

**Great Canadian Appathon**

January 2014

*Project Lead, Programmer, Game Designer*

Competition to create a mobile game in 48 hours. Designed core game concepts, managed teamwork, and programmed in Titanium Studio Appcelerator. Completed on time, finishing with a solid iPhone game with interesting game mechanics.

**FITC**

April 2014, November 2014

*Volunteer*

Helped set up for the event. Ran power outlets, put together badges, set up registration desk, and various other activities.
